General Reference for Nelson O. Wax

---

It has been my privilege to work with Nelson at the Long Island Association since July of 2001.

Nelson brought a broad range of skills and specific abilities to his work at the Long Island Association. In launching the Business Improvement Services program he led the LIA into new fields at a particularly challenging time.

A loyal team player, he is both strategically and tactically proficient. He brings a diligent and strong work ethic to the tasks at hand.

Any future would employer would do well with Nelson as a part of their team.

Best Regards,
